

AUTOMOTIVE & HOME ELECTRONICS

RATNESH INTERNATIONAL

Introduction

Ratnesh International is an enterprising company with its interests in automobile, wind & hydro power, industrial machinery, electrical & electronics. Ratnesh International has been a pioneering force in the automobile & industrial machinery sector with many firsts and innovations to its credit. Ratnesh International has business tie ups with various companies across the globe.

Ratnesh International launched brand “**RNG EKO GREEN**” for energy saving and environmental friendly products & devices which are very helpful for mankind. We are the first one to introduce USB mobile charger in India with our brand “**RNG EKO GREEN**” for two/three wheelers starting with Hero electric bikes & e-rickshaw. Company now manufactures big range of Automotive & Home Electronic products under our brand “**RNG EKO GREEN**”. With the operational belief that Professionalism lies in details since establishment, Ratnesh International keeps as its developing goals that creating outstanding products to meet beyond customer's expectations.

What sets Ratnesh International apart from the rest is its ability to forge strong partnerships. Over the years some of biggest names in international business have tie ups with Ratnesh International. Cathaya Group, Zhuji Heist Motor, Sumitomo Group are some of them. We are proudly associated with very big global customers for supply of various industrial material & machinery. JNS, Pricol, Minda, CSL, Indication, Nippon Seiki (China), Skoda (CZ), Juli Motors (CZ), Eicher Volvo, Yamaha, Hero Electric, LML, TVS, Suzuki (China & Japan), Honda (China), Peugeot (China), C&S Electric, Videocon, Onida, Philips, Bajaj Electronics, Oreva etc are some of our global customers. With advanced equipment, superb technology, excellent product quality, after-sales service and rich management experience, we have developed into a well-known manufacturing enterprise in automotive & home electronics products in the Asia-Pacific region.

AUTOMOTIVE PRODUCTS

Car Vacuum Cleaner

Key Features

- High Power (150 W)
- Extension Mouth Connector
- Wet/dry Cleaning Application
- Extra Brush To Clean Dust
- 5 Meter Long Wire

Model: RNG 2001

Extension Mouth Connector

Dust Cleaner Brush

Key Features

- High Cyclonic Power (200 W)
- LED Light For Night Operation
- Extension Mouth Connector
- Wet/Dry Cleaning Application
- Extra Brush To Clean Dust
- 5 Meter Long Wire

Model: RNG 2002

Product Description

(A) TECHNICAL INFORMATION: --- Input: DC 12V || Power: 200 W / 150 W || Wire Length: 5 meter || Suction: 5.8 KPA / 4.5 KPA

(B) PRODUCT FEATURE: --- It is very powerful vacuum cleaner with high power of 150W/200W to quickly clean the interior of automobile. It is designed for automobiles with 12 V supply. It has LED Light for night operation. It has both dry and wet application to absorb spilled liquid inside the car. It adopts high efficiency HEPA filter system that has unique rapid cleaning design and convenient usage. No need to worry about getting hands dirty. With the help of the cleaner, any tiny particles of dust and dry scraps in the space can be removed quickly. It also has extension connector to reach all corners of car and clean. It also has brush connector to clean away dust. It is very easy to disassemble and clean its Hypalon filter to have maximum and continuous cleaning efficiency. The 5 meter long wire reaches every corner of the car and even car dicky and works for all big and small size cars.

Analog Portable Car/Bike Air Compressor (Tyre Inflator)

Model: 1301 B

Key Features

- Very fast inflate, portable, high power, low noise
- Bright LED lighting for night operation
- Extra Nozzle attachment for inflating ball, bike, air mattress
- Oil less design with no daily maintenance

Nozzle Attachments

Nozzle Attachments & Fuse

Model: 1313

Alligator Clips

Product Description

(A) TECHNICAL INFORMATION: ---

- 1) Maximum air flow output: 45L/min || 35L/min
- 2) Maximum working pressure: 100 PSI || 160 PSI
- 3) Rated voltage: DC 12V
- 4) Amperage: 12A || 10 A
- 5) Working temperature: -20°C to 80°C
- 6) Noise: less than 85 DB

(B) PRODUCT APPLICATION: --- The pump is applicable for regular cars, SUV, two wheelers, three wheelers, small and middle size jeeps. The pump is also applicable for small size inflatables like all kinds of balls, air mattresses, rubber dinghies and so on. It is widely used in many fields. It can deal with an emergency of air leakage of car tyres in any place. It can ensure proper tyre pressure of the car any time which will save gasoline, protect the tyre and ensure vehicle running safely.

(C) PRODUCT FEATURE: --- It has high power cylinder compressor to give high output of 45L/min to inflate in very quick time. Also the high power cylinder pump reduces the max. pressure to 100 PSI in comparison to 300 PSI max. pressure by single cylinder pump of other competitors. The LED lighting features helps to operate in night. The additional nozzle attachments helps to inflate all kind of balls, two wheeler tyre, air mattress etc. The pump does not need daily maintenance and it has oil less design.

Digital Double Cylinder Car Air Compressor (Tyre Inflator)

Model: 1305S

Extension Air Tube

Alligator Clips

Nozzle Attach

Key Features

- Digital Display Gauge (with Automatic Cut Off & Bleeder Valve)
- Triple Fast Inflate, Low Noise
- Double Power Twin Cylinder Compressor
- LED Light for Night Operation
- Accessories: Nozzle Attachments, Alligator Clip, Spare Fuse

Model: 1308BS

Digital Display Gauge

Model: 1307S

Product Description

(A) TECHNICAL INFORMATION: --

- 1) Maximum air flow output: 90L/min || 70L/min || 45L/min
- 2) Maximum working pressure: 160 PSI
- 3) Rated voltage: DC 12V
- 4) Maximum amperage: 12-25 A
- 5) Working temperature: -20°C to 80°C
- 6) Noise: less than 85 DB

(B) PRODUCT APPLICATION: --- The pump is applicable for regular cars, SUV, two wheelers, three wheelers, small and middle size trucks, buses and jeeps. The pump is also applicable for small size inflatables like all kinds of balls, air mattresses, rubber dinghies and so on. It is widely used in many fields. It can deal with an emergency of air leakage of car tyres in any place. It can ensure proper tyre pressure of the car any time which will save gasoline, protect the tyre and ensure vehicle running safely.

(C) PRODUCT FEATURE: --- It has Digital Display Gauge with Automatic Cut Off. It also has Bleeder Valve to remove extra air. It has Double Cylinder Compressor which generates three times more powerful output of 90L/min in comparison to low output of 30L/min by single cylinder pump which reduces the inflate time by thrice. The LED lighting features helps to operate in night. The additional nozzle attachments helps to inflate all kind of balls, two wheeler tyre, air mattress etc. There is also alligator clip to connect the pump directly with car battery or any other DC 12V power supply. There is also additional spare fuse provided in case fuse wire is burned. The pump does not need daily maintenance and it has oil less design.

USB Mobile Chargers For 2/3/4 Wheelers

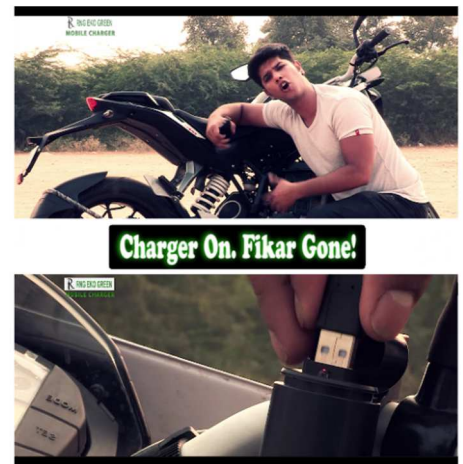

Motorbike Speedometer with USB Charger integrated

USB Charger for Motorbike with Mobile Phone Stand

Standalone USB Charger for Motorbike

Screw Type USB Charger for Four Wheelers / Three Wheelers / Two Wheelers [Single/Double Socket]

Product Description

Rated voltage (V)	Working voltage range (V)	Output voltage (V)	Output current (A)	Operating Temperature
12 to 60	8-18 to 52-66	5±0.25	≤1A, 2A, and more	-30°C to 60°C

We have USB chargers for Motorbikes, e-bikes, 3 wheelers, 4 wheelers. We make 12 to 60 rated voltage USB chargers with output current 1A, 2A and more. We can do customization for our OEM clients. Our chargers are waterproof, have short circuit protection, hi speed charging, easy fitting, environment friendly and have theft protection.

Car Safety Hammer (Glass Breaker/Seat belt Cutter)

Model: RNG XP808

Dynamo Operated LED Light

Key Features

- Emergency Glass Breaker
- Seat Belt Cutter
- Dynamo Operated LED for Emergency Light
- Life Saving Tool
- Portable

Glass Breaker

Model: RNG LV837

Seat Belt Cutter

In Emergency

BREAK CAR GLASS! CUT SEAT-BELT! SAVE LIFE!

Product Description

RNG EKO GREEN Glass Breaking Hammer is an emergency life saving tool. It is used to break the glass and cut the seat belt in emergency cases where during car accidents doors get locked and seat belts get jammed due to malfunction and people are not able to get out of the car. Many such cases have been reported where fire broke out in cars and people died in cars as they could not get out. So for these kind of emergency situations RNG EKO GREEN hammer helps in saving life. It also has Dynamo operated emergency LED lighting which can be used as torch in night. Dynamo works on manual rotation of handle provided on back side of the hammer. 1 minute of rotation gives 5-10 minutes of light. Hammer is made from high quality stainless steel which is corrosion resistant. The outer material is very high quality plastic which is weather resistant and environment friendly. It is portable, very light and can be kept easily at any place inside the car. We recommend 4 pcs to be kept on four side windows of car so that in emergency people sitting next to window can break the glass without wasting time and save their life. Girls can also keep it inside purse or any hand bag and use it to save themselves from any burglar, stalker or thief.

HOME ELECTRONICS

Home Vacuum Cleaner

Model: RNG-DV-887A-1

Key Features

- Multi Cyclone System to prevent loss of suction
- 800 Watts of Cyclonic Power
- Four Level Filtration System
- Low Noise and Light Weight
- Compact size & Excellent Design for easy storage

Product Description

(A) TECHNICAL INFORMATION: --

- 1) Maximum Suction: 16 KPA
- 2) Rated Power: 800 Watts
- 3) Rated voltage: 220-240V 50-60Hz
- 4) Power Cord Length: 4 Meter
- 5) Dust Capacity: 0.5 L
- 6) Noise: less than 75 DB

(B) PRODUCT APPLICATION: --- The vacuum cleaner is applicable for cleaning home interior only. Plug in the appliance and use ON/OFF button to start the device for cleaning. Connect the Main Floor Brush to clean the floor and connect Telescopic Tube to clean the floor in standing position. There is also Multi-Purpose Crevice Brush to rub and remove dust so that vacuum cleaner can easily suck the dirt. After cleaning remove the trash collected in dust cup by pressing Dust Cup Bottom Release button present on bottom of dust cup and if filter system too dirty then remove the dust cup by pressing button over dust cap and take out the filter system assembly from dust cap, then clean the Sponge filter, Plastic filter and HEPA filter with soft brush or wash them with water. Dry the filters before using them again. You may also clean Car interior with this device but it does not work on 12 V DC Car battery so there should be electricity switch board for plug in inside Car garage or place for cleaning.

(C) PRODUCT FEATURE: --- It has Professional Multi Cyclone System which prevents loss of suction. 800 Watts of Cyclonic Power creates very strong suction force of 16KPA to quickly clean the home interior. It has Four Level Filtration System with Easily Removable & Washable Dust Cup, HEPA Filter and Sponge Filter It's Compact Size & Excellent Design helps in easy storage. It is very light weight and has low noise. Its 4 meter long wire enables vacuum cleaner to reach every corner of the home. Accessories like Main Floor Brush, Telescopic Extension Tube & Crevice Nozzle Brush connector help to clean away dust and reach all corners of home

3 In 1 Multi-Function Electric Cooker / Rice Cooker / Stir Fryer

Model: RNG-FD50F1

Key Features

- Beautiful MOTouch® Touchscreen Display Panel
- Fuzzy Logic Technology
- 16 Inbuilt Cooking Modes
- Special PRESET Function
- Separate RICE Cooking Mode
- Automatic Shut Off & 3 D Heating Feature
- KEEP WARM function

Product Description

(A) TECHNICAL INFORMATION: --- Capacity: 5 L (1.8 Litres) || Input: 220-240V || Power: 860 W

(B) PRODUCT APPLICATION: --- RNG EKO GREEN Electric Multi-Function Cooker/Rice Cooker/Stir Fryer/Food Steamer is a high quality device with which you can cook food sitting comfortably at any place and anytime. Put the ingredients in the inner pot, select your suitable cooking mode and leave it. When food will be cooked it will automatically Shut Off and switch to KEEP WARM mode to keep food warm and fresh. Also it has special PRESET feature with which you can set the time by which you want the food to be ready. So now you watch TV, do exercise, indulge in gossips, go out for shopping or do any personal work and still you can cook food without physically being present there. COOK ANYWHERE & ANYTIME

(C) PRODUCT FEATURE: ---

- 1) Beautiful Touchscreen Display Panel with Fuzzy Logic Technology
- 2) 16 Inbuilt Cooking Modes/Options in MENU. (CAKE, SOUP, STEW, FRY, BAKE, CRUST, PASTA, PIZZA, YOGHURT, OATMEAL, DESSERT, STEAM, CONGEE, MILK PORRIDGE, SOAKED RICE, REHEAT). The cooking time and temperature for these inbuilt modes is already set but you can adjust cooking time and temperature for some modes. Using STEAM Mode you can prepare IDLI, MOMOS, MAGGI, NOODLES etc. Same way you can make so many of your favorite dishes
- 3) Special PRESET Function so that you can set any suitable time, put all ingredients inside inner pot and food will be cooked automatically by that time. You can go out or do any of your personal work without worry.
- 4) Separate RICE COOKING Mode especially for cooking rice. By default the cooking time for rice is set to 45 minutes but you can adjust the time and temperature according to your choice.
- 5) Automatic SHUT OFF Feature makes a beep sound and stops the device once cooking time for selected cooking mode is complete and then it moves automatically to KEEP WARM mode. So you don't have to worry for overcooking of food and also food will remain fresh
- 6) KEEP WARM function helps in keeping food warm and fresh.

Electric LED Glass Kettle

Model: RNG-1752 (1.8 L)

Key Features

- High Quality Clear Borosilicate Glass
- Blue LED Lighting (make boiling visual enjoyment)
- German-French Design with CE & RoHS Certificate
- Easy Open & Close Lid
- Automatic Safety Shut Off
- Boil Dry Protection
- Hidden Heating Element
- 360° Cordless Pirouette Base

High Quality Glass Body

Model: RNG-1519 (1.5 L)

Easy Open & Close Lid

Hidden Heating Element

360° Cordless Pirouette Base

Blue LED Lighting

Product Description

(A) TECHNICAL INFORMATION: --- Capacity: 1.8 /1.5 Litres || Input: 220-240V || Power: 1850-2200W

(B) PRODUCT FEATURE: --- RNG EKO GREEN Electric Glass Kettle is made from German technology and has modern colorful French design which gives exotic look to kettle. Glass kettle is of very high quality and has both CE & RoHS certificate. Water boils inside high quality heat resistant borosilicate clear glass which has very high temperature resistance up to 500°C. Blue LED lighting strip inside glass pot gives blue color to water and make boiling look visually very beautiful. The outer body of kettle is made from high quality stainless steel & plastic which is wear resistant and corrosion resistant. Easy opening, Easy filling and Easy cleaning make it Easy to Use device. The lid opens with one deep press of push button. The lid has plastic in its center which helps in closing the lid avoiding any burn. 1.8 litre volume is good enough to boil high volume of water to serve 3-5 people. The Kettle automatically shuts off when water is boiled. It has very high quality thermostat which has accurate temperature control and lasting durability. Kettle also has boil dry protection. The heating element is hidden. It has 360° cordless pirouette base, for easier handling.

Air Fryer

Model: RNG 5010

**Reduce Fat
Up to
80%**

**Save
Energy Up to
60%**

**Rapid
Air
Technology**

Key Features

- Beautiful Multi-Color Modern Design
- Reduce up to 80% fat intake
- Saving up to 60% Energy
- Rapid Air Technology cooks food evenly
- Beautiful LED light temperature indicator
- Timer with ready bell signal & Auto shut-off
- Free Recipe Booklet full of healthy dishes

Frying

Roasting

Baking

Grilling

Product Description

(A) TECHNICAL INFORMATION: --- Capacity: 2.4 Litres || Input: 220-240V || Power: 1400W

(B) PRODUCT FEATURE: --- RNG EKO GREEN Air Fryer is modern multi-color design which saves up to 60% energy. Its elegant design & beautiful color combination enhance the beauty of your kitchen. It has RAPID AIR TECHNOLOGY which circulates hot air around the food and cook food evenly reducing 80% fat intake. It cooks food uniformly and locks in natural juices. It has beautiful LED light temperature indicator and temperature adjustable control for perfect result. Timer with ready bell signal & Auto shut-off feature switches off automatically to prevent your food from overcooking and the ready indicator alerts you once the cooking is complete. The safety button is positioned at the top of the basket's handle and causes automatic shutdown of the air fryer if the basket is pulled out during the cooking process. The grill and the frying basket can be easily pulled out and cleaned. It cooks food faster than standard oven and very cost effective saving up to 60% energy. FREE RECIPE BOOKLET is available with this air fryer which is full of healthy, tasty and quick recipes. Presenting RNG EKO GREEN Air Fryer, the healthy alternative to fried food. Enjoy oil free chips, snacks, meat etc., without guilt. What more! The food tastes exactly like the oil fried foods you are so familiar with. The attractively styled RNG EKO GREEN Air Fryer allows you to broil, roast, bake and grill in a healthy and oil freeway.
